Stillness Brings Light of Hope and Love

**The good earth rocks, tumbles, in plague of illness
God is with us, flows thru river of inscape stillness.**

Rising waters rage, suffering everywhere unfolds.

God is with us, flowers bloom Word of beauty to behold

Sharing, touching, sadly gone, hearts break with empty, deep hole.

God is with us, singing light streams refreshing mercy, steadying soul.

God is with us, breathe in heart of love, awareness, gentle peace

Breathe out love, Holiness dancing, aliveness, oneness for all to reach

God is with us, darkness and fears in mercy fade and cease.

Wellspring of Hope, steadfast Presence, infinite love in Silence

God is with us, Praise and Thanks, our blest spirit Sings.
