

As the election nears and we acknowledge the profound impact of women as leaders and models, let us consider Meghan Markle's words as part of a UN speech in 2018:

*"Women need a seat at the table.*

*They need an invitation to be seated there, and in some cases, when this isn't available, then they need to create their own table. It is said that girls with dreams become women with vision. May we empower each other to carry out such vision because it isn't enough to simply talk about it. One must believe in it. And it isn't enough to simply believe in it. One must work at it. Let us work together, starting now."*

May we join hands and work together to unite neighbor with neighbor and neighbor with God!
